

WSLI GALAXY LED PANEL SERIES

backlit or edgelit panel

Advanced tech of LED panel lights, can reach 160lm/w high efficacy, save much of energy comparing with other lamps at the market.

Edgelit structure: Aluminum plate+SMD LED+ Reflective paper+ Light guide plate+ Diffusion plate+

Constant current driver

* Aluminum material + PMMA

* Flicker free

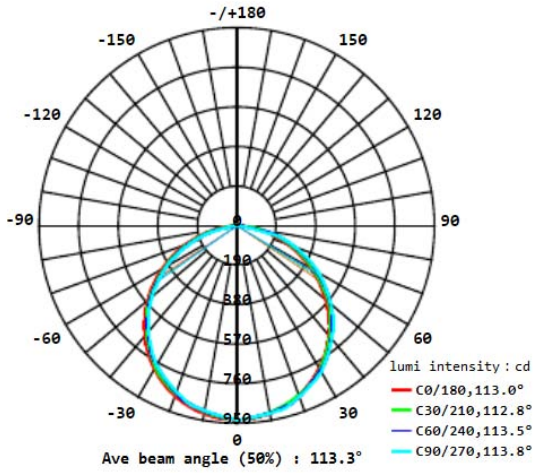

* High color rendering

* High power factor

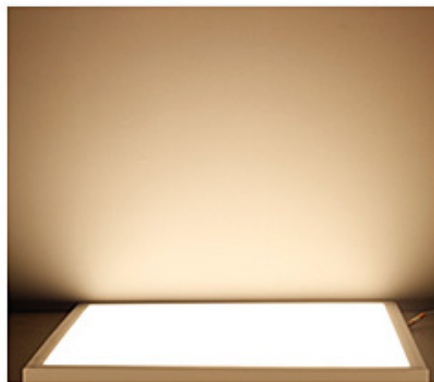

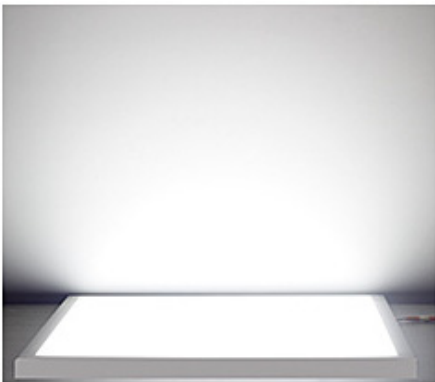

* LED chip longer life >50,000hrs

Light distribution

CCT for reference

Parameter

Model	Power (w)	Lamp size (mm)	Driver	Voltage (v)	CRI (Ra)	Temp	PF	CCT	Efficacy	PCS/CTN
3030D	12	295*295	Constant current driver	In: 220-240 Out: 27-40	80/90	-30~45°C	0.93	3000-6000k	130~160 lm/w	20
3060D	24	295*595								10
6060D	40/48/60	595*595								5
30120D	40/48/60	295*1195								5
60120D	60/72	595*1195								5
